## Do Not Trade.

Do not trade your vote, no matter how enticing the inducement may be. Protectionists are being constantly approached with propositions for votes for the entire legislative ticket in exchange for a single vote for Howard for Congress. One Democratic worker has been heard to boast that he has made such a trade no less than ten times, expecting, of course, to get ten votes for Howard in exchange for the one that he can give. The trick is grossly dishonest.

The INTELLIGENCER does not believe that the friends of American industries are prepared to barter their principles in this way. Vital principles, affecting the welfare of every man, woman and child in this country are at stake. To trade a single vote to be jeopardized the cause of protection.

Let every voter beware of any proposition to make trades on any part of the ticket, for it is the last effort of a desperate party to save something out of the wreck.

## Let Voters Beware.

Sensational stories about Republican candidates sprung at the last hour to bolster up a desperate cause is now the Democratic scheme.

Voters, look out for them. They are an insult to your intelligence and are only calculated to appeal to the prejudices of the ignorant.

In some portions of the state the free traders expect to get in two of their men who can be corrupted as poll clerks, so as to aid their purchase of voters. It is a shrewd scheme.

## The Organ at Sea.

A correspondent calls attention to the fact that the issues of the campaign have been severely ignored by the organ of free trade, whose columns are given up to misrepresentations of facts and foisting of issues extraneous to the contest. It has endeavored at times to delude such statements with an argument. A sample, explaining "higher wool and cheaper clothing," taken from an issue of several days ago, refers to the manufacturer of woolen goods and the advantages of "untaxed wool."

"It enables him to use American wool where he formerly used shoddy. It vastly increases his industry and output, hence the demand for domestic wool, raising its price. For the same reason he makes better and cheaper clothing."

This is a sad blow to the intelligence of the people, says our correspondent. The Register has told its readers that wool has advanced under the new tariff and was lowest under the McKinley act. In other words wool was so cheap under that law that the manufacturer was compelled to use shoddy, but now that it has risen in price he will no longer find it necessary to use that material but will use domestic wool which he could not afford to do under the McKinley because it was too cheap. The Register should confine itself entirely to misrepresentation, for whenever it tries to expound logic it appears to rather poor advantage.

"Hail to the business revival!" shout the Democratic organs. "But where is the restoration of my former wages?" respond the workmen.

The Register is still ringing the changes on the A. P. A. roorback. It is preparatory to the scheme to flood the district with charges against Re-

publican managers and candidates at the last moment. The question of religion is not an issue between the protection and free trade parties. The people cannot be deceived, nor have their minds turned from the main question, which affects their homes and country by cowardly appeals to their prejudices.

The Register's personal abuse of Republican candidates is making them votes.

## The Difference.

A vote for Dovenor is a vote to renew tariff agitation and business uncertainty. A vote to re-elect the vicious McKinley tariff—Register.

While the tariff was undergoing revision by the last Republican Congress there were no business disturbances because the people knew the policy of protection was in the hands of its friends. From that time until the Democratic party came into power with its threats to wipe out protection the country was in a state of prosperity.

While the tariff tinkering of the present Congress was in progress there were business uncertainties, great depression, closed mills, thousands of starving people and a general reduction of wages, because the business world realized that the tariff was in the hands of its enemies and knew not what to expect.

When a Republican Congress is assured the business interests of the country will be relieved of anxiety regarding further strides in the direction of free trade, and the period of uncertainty and depression, based on fears for the future, will be at an end.

These are facts which the business men and workmen of the country are considering. A vote for Howard is a vote for more uncertainty, for William L. Wilson, Grover Cleveland and every free leader in the land have declared that the fight to tear down our tariff defenses is only begun, and that declaration is in nearly all of the Democratic platforms of this year.

Look out for Democratic roorbacks between now and Tuesday.

## Dovenor and Hubbard To-night.

Captain B. B. Dovenor will conclude his campaign in this county at the opera house to-night, on which occasion the voters will be addressed by the captain and the Hon. William P. Hubbard. It goes without saying that the crowd will tax the capacity of the theatre.

Everywhere in the district Captain Dovenor has received ovations, not only because of his deserved personal popularity with the people, but because of the cause he represents in the campaign for home and country, and against the assault upon the system which has built up and fostered American industries. Here at his home, at the windup of a triumphant tour of the district, his reception will be no less gratifying than it has been elsewhere.

Mr. Hubbard, who will also address the audience, is one of the most forcible and effective, as well as one of the ablest champions of the party of protection in the state. His speech will be worth hearing. Let the meeting be a "rouser."

On the seventh page is an article written by an old citizen of Wheeling giving a history of the effect of the effect of the Democratic tariff of 1846 on Wheeling industries. Let every voter read it.

## A "Dignified" Campaign.

Following is a sample of the "courtroom" treatment Republican speakers receive at the hands of the Democratic Register:

The Republican quartet, Whitaker, Brady, Hooten and Hart, entertained a small audience last night by running the gamut, as usual, on the Register. Their pockets were bulging with the Register, and their souls were bursting with it. Each waved it dramatically, clutched it frantically, or crumpled it savagely. The Register, by the action of Whitaker, took base and growled and roared deep maledictions at the Register. Brady shrieked an imprecation at the Register. Hooten snatched an alio of damnation at the Register, while Hart warbled a dulcet soprano of airy nothings at the Register.

And on this line the Register hopes to make votes for its party.

The Register quotes the manager of the Crawford woolen mills as saying that he is paying one cent per pound more for wool under the Gorman-Wilson bill and that he has not reduced wages. If this be true, will the Register kindly explain how the workman is going to get that "cheaper clothing" promised him? Does the Register expect the manufacturer to sell his goods cheaper while paying more for his raw material? That is not the Democratic theory of free raw material. Cheaper raw material is what was promised.

In preparing your ballot draw a line through every ticket which you do not wish to vote, leaving clear the ticket you wish to vote. If you are doubtful about how to prepare your ballot so that it will be sure to be legally counted, it is the duty of the poll clerks to instruct you. Follow the instructions to the letter.

Do not stay away from the polls because you are not listed. No citizen can be deprived of his rights in this state. If you are not listed there is a way provided in the law to secure a vote. You can be sworn as to your citizenship.

Note in another column the open letter addressed to the National League members (which includes all Republican clubs) by the national officers, and note particularly the warning against over-confidence.

DEMOCRATS are preparing roorbacks in the shape of secret circulars attacking Republican candidates! Beware of them.

## MCKINLEY AND WILSON ABOARD.

In 1890 William McKinley was burned in effigy in the English manufacturing city of Sheffield, but in 1894 William L. Wilson was wined and dined in London because he is the author of a free trade tariff bill. These are significant facts.

## UNITED EFFORT

Needed for Protection's Success all  
 Along the Line.

## THE VALUE OF A SINGLE VOTE

May Mean the Election or Defeat of a Ticket—The Election of 1894 is Important to the Interests of the Country—Look Out for Frauds Against Congressmen and Members of the Legislature and Fight for the Whole Ticket.

HEADQUARTERS NATIONAL REPUBLICAN LEAGUE, HARTFORD BUILDING, 140 DEARBORN STREET, CHICAGO, ILL., NOV. 1, 1894.  
 To Republican Club Members Throughout the United States:

DEAR SIR:—The most important and far-reaching campaign of this generation is drawing to a close. Literature and speeches have played their part. The time for united effort has arrived. Every citizen who believes that Republican success will restore business prosperity should make a business of politics on election day, knowing that politics this year means business.

The league clubs throughout the United States have been working quietly and effectively ever since the disastrous defeat in 1892. That work has helped to prepare the way for victory. One more duty remains, and we therefore call upon the members of every Republican club in the United States to volunteer their services on election day from the opening of the polls until all the votes are safely deposited and honestly counted. Many elections have been lost to the Republican party in the last days of the campaign because of overconfidence on the part of protectionists and because of the pernicious activity of their opponents.

We urge the members of all Republican clubs in the United States to assemble at their headquarters on Saturday or Monday night before election for the special purpose of organizing intelligently and dividing up the election day work in the various election districts, being sure to co-operate with the local campaign committees, so that no work will be duplicated and every weak point will be covered. We realize that the opposition is desperate, and that the combinations formed will not stop at anything to carry their point. Therefore, we urge league men to be prepared for every emergency.

The complexion of the United States senate in 1897 may be decided by a single vote in your state.

All Republicans will recognize that the fruits of victory in 1896 would be practically annulled so far as national legislation is concerned, should the Democrats succeed in their cunning scheme to "capture the United States senate."

Look out for frauds against your congressmen and members of your legislature and fight for the whole Republican ticket!

Believing that every Republican league man will appreciate the situation and do his full duty, we leave the cause in your hands with full confidence in the result.

WILLIAM W. TRACY, President.

ANDREW B. HUMPHREY, Secretary.

## To Workingmen and Business Men.

The leaders of the Free Trade Democracy, including President Cleveland and W. L. Wilson, have declared that the fight to tear down our tariff defenses has only begun. A vote for John A. Howard for Congress is a vote to renew the agitation, with all its accompanying business uncertainty and industrial depression. A vote for Captain Dovenor is a vote to save the country from a repetition of the misery which followed the inauguration of the assault on the tariff, and a vote for the Republican candidates for the legislature will mean the same thing.

DO not trade your vote. It may mean the carrying out of the free trade threat.

## A Register Report Corrected.

SPECIAL DISPATCH TO THE INTELLIGENCER.  
 FAIRMONT, W. VA., Nov. 2.—The account of the Dayton meeting at Monongah Wednesday night, as published in the Register was an infamous falsehood. The crowd from this place could not be accommodated by the Monongahela railroad, and after attaching two box cars to the train, there were a hundred or more people unable to get transportation. These all paid their fares. This is the plain fact and cannot be denied. In contrast to this was the meeting at Minersville, addressed by John T. McGraw, which was attended by thirty from that place. A free train was run from Monongah, but could only get two car loads of Democrats to attend.

## Democratic Misstatements Denied.

TO THE EDITOR OF THE INTELLIGENCER.  
 SIR:—To-day's Register contains a special from Hendricks stating that Republicans had sent out bills of an appointment for Mr. Wilson at Hendricks to-day, instead of yesterday, and that the bills came from my office. The whole statement is a LIE of the whole cloth and was made by Leland Kittle, chairman of the Democratic county committee, and the bills were printed at the Lygarr's Valley News office. The corrected bills were printed in Beverly and distributed from this place. This is only another Democratic scheme to blame Republicans for their own carelessness. The slanderous reference to the Inter-Mountain is unworthy of notice.

## NOT WORTH IT.

Mr. Whitescarver Reduces His Employees' Wages Because He Claimed They Were Too High.

SPECIAL DISPATCH TO THE INTELLIGENCER.  
 BUCKHANNON, W. VA., Nov. 2.—The Buckhannon Delta publishes an interview with George M. Whitescarver, of Pickens, whose letter relating to receiving an advance of \$2.00 per thousand feet on lumber, has been generally published through the press of the country. The Delta says: "Mr. George Whitescarver, in an interview with the editor of the Delta, says that he got the \$2 per thousand on his lumber through a special contract that he made months ago, which will run for a year. He does not claim that the increase in price is general. He also said that the reason that he reduced the pay of his men was not because of the hard times, but because they were not worth what he was paying them. In reference to a Democrat who told the Delta that he would vote the Republican ticket if Mr. Whitescarver continued to utter misleading statements, he said that he would discharge the man if he could find out his name."

## TREND OF TRADE.

Markets Tending Downward and Production Below Two Years Ago.

NEW YORK, Nov. 2.—R. G. Dun & Co.'s weekly review of trade, which issues tomorrow, will say:

The last week of October, with an exciting election near, cannot indicate much of the true condition of business; in some trades the season is too far advanced for great activity, and in others the supposed effects of the voting hinder operations. But it is satisfactory that the volume of production is well maintained, and in one or two branches increased, that no momentary difficulties disturb that breadstuffs are a little higher and that no material decline appears during the week in manufactured products. At present the volume of business transacted is on the whole smaller than last year, and much smaller than in 1892, though a presidential year was then close at hand.

Corn has advanced to 4 cents, with western receipts about a third and exports about an eighth of last week. Yet pork and hogs are a shade lower with lard about the same. Wheat is three-fourths of a cent higher for spot and one cent for December and looks as if strength in corn had prevented a further decline, although when receipts were only 4,587,670 bushels for the week against 6,503,171, last year and Atlantic exports increased to 600,568 bushels against 740,506 last year, the irresistible force is of course the enormous accumulation, which continues although producers may naturally be inclined not to sell at current prices.

Cotton is again lower, not being 6.7 cents, with receipts so heavy that the large crop estimates are favored, though it makes little difference in the real prospect whether the yield is half a million or a million bales greater than the world's requirement, with great stocks of old cotton in sight. The depression of cotton and wheat and the partial loss of the corn crop must be reckoned important causes of hesitancy in the retail distribution of produce.

In the iron industry the chief activity is in structural work, bridge and other plates, while the demand for sheets is somewhat diminished; bar and wire show no improvement and nails are weaker.

The average of quotations for various kinds of iron and steel is 3 per cent lower than in July, 0.5 per cent higher than at the lowest point in April, and 20 per cent lower than in July last year. A conference of steel rail makers resulted in no change of policy, though purchases of English rails by Mr. Huntington, for Pacific delivery, and by Canadian roads indicate that American makers are losing part of their natural market.

In wools the fall and winter demand is disappointing, though still fairly large for the season, but the expected supplemental orders do not appear, and great uncertainty prevails as to spring goods. No changes of price are noted. Manufacturers are not disposed to produce in advance of the change January 1, and so are buying only for current needs, and at the west it is complained that wool goes begging at prices below the parity of similar wool abroad on the secured basis. At the three eastern markets sales for the week were 4,004,900 pounds, against 4,458,500 pounds last year, and 7,056,953 in 1892.

During the past week failures have been 249 in the United States against 358 last year, and 50 in Canada against 28 last year.

## OH! FOR MORE STRENGTH!

A Cry Which is Going Up Everywhere.  
 Just Read This, Weak People.

Oh, those nerves of ours how they do bother us! Weak, tired and nervous is the complaint everywhere. We overwork, disipate, weaken our bodies, ruin our health, and finally break down. Sleeplessness and indigestion are early symptoms, for the nerves are too exhausted and irritated to permit rest, and the stomach too weak to digest food.

Beware of such symptoms! A well-known druggist, Charles W. Eggleston, Esq., 329 Park avenue, Worcester, Mass., suffered from nervous prostration and all its terrible symptoms. He writes the following letter telling what he knows is the best way to get well:

"Some time ago I was taken with nervous prostration. I suffered terribly with my nerves and could get no sleep at all. I became fearfully exhausted, my stomach was in a terrible condition from dyspepsia, and I could eat hardly anything."

"I used several medicines, but without benefit. Being in the drug business myself, and having had many customers speak in the highest terms of Dr. Greene's Nervura blood and nerve remedy, I determined to try it. After taking only one-half bottle I began to feel much better."

"I slept soundly all night, and my appetite was splendid. After taking three bottles, I ate three square meals a day, and had not the slightest distress. My nerves were perfectly strong and I felt like a new man, being completely cured of all my troubles."

"Out of the respect I bear the manufacturers of Dr. Greene's Nervura blood and nerve remedy, and my desire to have the sick and suffering made well and strong, I unhesitatingly say that this medicine is the best and most wonderful remedy known to-day."

"It does just what is said of it, it cures disease. Don't hesitate to use it, sufferers, for you will never regret it. You will be made well and strong."

As this letter is from a dealer in medicine, his word is authority on such matters. Everybody knows that Dr. Greene's Nervura blood and nerve remedy is the great leading medicine of the age. Take it and you will be made strong, healthy and vigorous."

With the aid of this wonderful remedy, you can endure any amount of work or pleasure, and life will look bright to you. It is purely vegetable and harmless. Doctors recommend it because it is the prescription of a physician, and because they know it cures."

Dr. Greene, the most successful specialist in curing nervous and chronic diseases, discovered it. He can be consulted free, personally or by letter, at his office, 33 West Fourteenth street, New York City.
